This modernistic townhouse is located in the center of Sóller and enjoys a large garden. The house was built in 1899 and it has very well preserved keeping most of the original features like the hydraulic tiles, the wood work around the whole house, high ceilings with decorated plaster and the iron work around the staircase. Over three floors plus a cellar, the house offers up to 7 double bedrooms and two bathrooms. In its garden there is cottage with water and electricity and that would be ideal to use as a summer kitchen to enjoy the sunny garden on the back of the house. Worth mentioning that it is possible to park up to 4 cars in the garden. Without a doubt exceptional for a house like this!
